

# How to access resources

All online resources are described in the library catalogue.

They can be found by searching the catalogue, possibly filtered by "Online resources".

image.png

or by launching a search after selecting the "online resources" sub-catalogue:

image.png

or by specifying in the "Availability" section that you are looking for an electronic resource:

image.png

A resource can be accessed from its full record:

image.png

Click on "Consult full text" in the white box under "Consult online". Note that the link may also bear the name of the platform where the resource is accessed or the name of the collection to which the resource belongs.

If you are in the library, you will go directly to the resource.

If you are not in the library, the link will take you to an authentication stage.
